CHAMBER NEWS *(continued from page 1)*

"We were like, 'Oh my gosh! What do we do?'" Brett Huskamp said.

It was a moment Huskamp, a restaurant co-owner in Atchison, would like to forget.

"It was a prime time to catch you off guard," he said.

It was Valentine's Day, a big day for his business. That was when a scammer called to make a quick buck.

"They needed the money that day, that moment or they were shutting us off," Huskamp said.

The caller claimed the restaurant missed an electric bill, something Huskamp questioned. But fearing no power would mean no business, Huskamp almost paid up.

"We had the cash in hand. We were that close to giving him our money," Huskamp said.

Down the street at Lopez de Mexico, restaurant owner Ann Pruett said the caller

was smooth, but she grew suspicious when the man wanted payment only with a Green Dot MoneyPak card, a type of cash-loaded debit card.

"They had everything. I thought if it was a scam, they wouldn't have, but they did," Pruett said. "I finally went, 'ahh!' I can't believe I almost bought into this."

Both were almost victims of what experts call the "Green Dot" card scam.

"Anyone can be scammed ... anyone," said Aaron Reese is with the Better Business Bureau.

The group just released their top scams of 2013. [Click here to read more.](#)

Victims were promised free medical alert systems. Bank accounts were needed for the monitoring fee, but nothing ever came in the mail.

Also, crooks targeted sellers on online auction sites like eBay with bogus payment

emails.

And topping the list were Affordable Care Act scams where victims gave away personal information thinking they would get new insurance or Medicare cards.

"Anything that is new, that is complicated, that affects a lot of people ... scammers are going to take advantage of that," Reese said.

But KCTV5 investigative reporter Eric Chaloux discovered Kansas City is seeing another scheme involving fake vacation time share companies, where people pay but never get their getaway.

"We've talked to people that have lost hundreds of thousands of dollars on them," Reese said.

Meanwhile, for Huskamp, he hopes others will learn from his story and never feel pressured to pay over the phone.

"To think you feel victim to something like this, but the same time, you have to let people know this happened," Huskamp said.

Consumer experts say if people doubt the identity of caller they should ask for their phone number to call them back.

It is easy to spoof a number on caller ID, but getting their number could help determine if they're legit.

The Better Business Bureau found that scam artists often target men in their mid-50s.

"It has to do with the psychology of scamming someone. It's easier to scam someone if he knows enough to follow along with the glimmering financial sales pitch. If the scammer manages to hit all, or most, of the right notes - faking credibility, dangling wealth in front of the potential victim, makes the victim feel like they're being done a favor, making the person believe that other smart people have done it and making it seem like the opportunity is only available for a limited time - it really snags that middle-aged male group quite effectively," Reese said.

For more information, contact the Better Business Bureau of Kansas City at 816-421-7800 or the Johnson County District Attorney fraud hotline at 913-715-300.

18 Ways to Grow Your Small Business Facebook Page Community

By Alyssa Gregory, sbinformation.about.com

Small businesses can support their online marketing activities by creating a Facebook business page. Once you create your page and begin to build a following, you can use it to promote your business on a daily basis. But, growing your page can be challenging, especially as more and more business pages are being created and the competition for "likes" is increasing.

Here are 18 ways to grow your Facebook community once you have created and customized your Facebook business page.

1. Build a Custom Welcome Page

A custom welcome page or tab is a great way to introduce your page and your brand to your fans and guide their interaction. You can encourage them to like your page, click-through to your website, share your page and more.

2. Add Photos and Videos

Use the photo and video upload function to show off your business, products, services and more. Adding headshots or introduction videos of yourself and your staff can also be a great way to connect to your fans.

3. Ask a Question

Use the status updates function to ask your fans questions. Try fill in the blanks or true/false questions that are easy to answer, and give your fans a quick way to participate. You can also encourage more interaction with the apps provided by engagement tools like Involver.

4. Create a Contact Form

Creating a contact form on your Facebook page with an app like ContactMe provides your fans with a quick and easy way to contact you.

5. Add a Blog Feed

Use an app such as NetworkedBlogs or RSS Graffiti to import blog posts from your blog right to your Facebook page as they are published. You can also add an RSS feed from someone else's blog.

6. Organize an Event

Organize an event, or sponsor an event, and use the Facebook event features to share it through your page.

7. Add a "Like Gate"

You can grow your community by creating a "like gate," or hidden content on your page that is only revealed after someone has liked your page.

8. Monitor Your Page

Keep track of activity on your page through email notifications so you can respond to comments or feedback, delete spam and continue to interact with your fans in a timely manner.

9. Run a Contest

Use an app like Wildfire to develop a contest that rewards active members of your Facebook community.

10. Keep it Relevant

It's good to add in some personality by posting a bit off-topic occasionally, but most of your posts should be links to timely, useful and relevant content for your audience.

11. Develop a Mini-Website

Apps like TabSite allow you to build out your page into a mini-website with multiple links, features and interactions. You can integrate parts of your business website and blog and create a well-rounded experience for your fans.

12. Promote Your Page

Include your Facebook page URL on your website, blog, email signature, business cards and other marketing materials to direct people to visit your page. If you have other social network accounts, share the link to your Facebook page and ask others to do the same.

13. Be Consistent

You don't have to be logged on and engaging all the time, but your fans need to know you are there. Set a schedule and be consistent when it comes to posting, commenting and interacting.

14. Get Involved on Other Pages

Like other Facebook pages that are relevant

in your industry, and participate in discussions on those pages (when using Facebook as your page). You can also tag pages in your status updates to help get your page noticed.

15. Blog about Your Page

Blog about your page on your blog, explain why people should like your page and join your Facebook community, and offer an incentive for people to like it (free download, discount, etc.).

16. Advertise on Facebook

Advertise using Facebook Ads or sponsored stories to get the word out about your page.

17. Reward Your Fans

Thank your fans for their support by providing special offers only available on your page, featuring a member of the week or helping to promote them.

18. Encourage Sharing

Make your page easy to share by adding icons and a "like box" to your website and blog, and asking your readers, customers and site visitors to like your page and pass it on.

Tips Avoiding a Scam from Westar taken From Westar Energy Website about Collection Activity:

Westar Energy attempts to make contact with customers before service is disconnected.

- When an account is past due, we mail a disconnect notice along with the current statement. The disconnect notice indicates the date payment needs to be received to avoid interruption of service. From when the disconnect notice is sent, it is approximately 10 business days until we will disconnect service.
- A few days before service is scheduled to be disconnected we will place a collection call. The number that shows up on caller ID will be 1-800-383-1183. If you are concerned the call is not legit, please hang up and dial 1-800-383-1183.
- The service person in the field will knock on the door and attempt to collect before physically disconnecting service. Service persons generally will not enter the home. Payment should be made to Westar Energy. Company employees wear a shirt with the Westar logo, often times have a hard hat, and will not hesitate to show company identification.

River Cities Community Credit Union Accepting Applications for 16th Annual Joseph M. Carrigan Memorial Scholarship

River Cities Community Credit Union is accepting applications for the Joseph M. Carrigan Memorial Scholarship. RCCCU awards \$750 to high school seniors towards their continuing education. This is the sixteenth year scholarships have been awarded.

Joe Carrigan was well known for his involvement in the community and was a founding member of the credit union. River Cities Community Credit Union established this scholarship in his memory.

A number of factors are taken into consideration in the choice of the recipients: involvement in school, grades, citizenship, involvement in the community and an essay on credit unions. Applicants or their parents must be a member of the credit union and high school seniors. In the essay, the applicant is asked to describe their association with the credit union and detail how it has been of service to them or to their family. Applications are available on RCCCU's website www.rivercitiesccu.com or in the office at 625 Commercial St., Ste. 6 in Atchison. Completed applications must be submitted to the credit union office by April 1st.
